

Gustavo Garcia Luna

Front End Development

Mail: gusgluna@gmail.com

LinkedIn: [/gusgluna](https://www.linkedin.com/in/gusgluna)

GitHub: [/gusgluna](https://github.com/gusgluna)

Web: www.gusgluna.com

Location: Mexico City.

Self-taught developer with experience in React.js, I code projects and deploying it in services like AWS and Netlify. Also, I have experience in SQL database analytics.

Experience

Personal Portfolio

I code my personal portfolio using technologies like React.js, Tailwind, and Webpack, deploy it on AWS Amplify service. url: www.gusgluna.com.

Wordle Clone.

I code a wordle clone (Word Game) using react and deploy it on Netlify, using react-hooks and the context API. url: [Wordle-clone](#).

PokéDex

Code a single page application using vanilla JavaScript and consuming the PokeAPI, using bootstrap for the CSS and deploy it on Netlify. url: [PokéDex](#)
